

ELMO THE MUSICAL

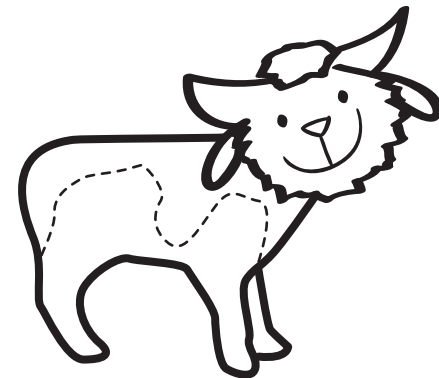

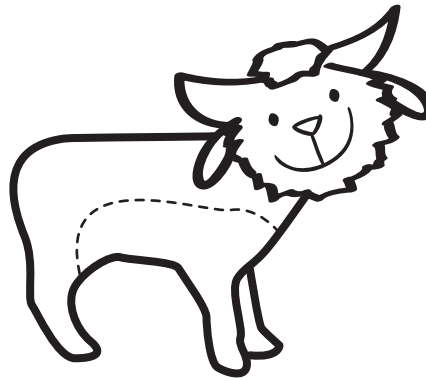

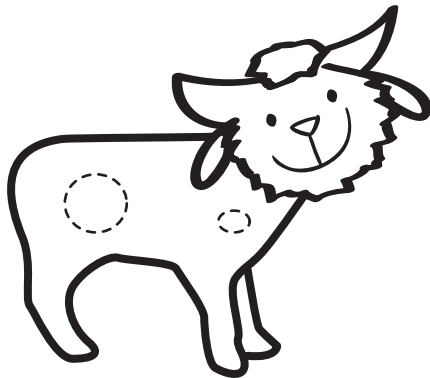

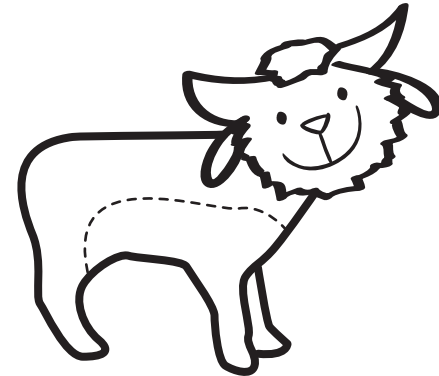

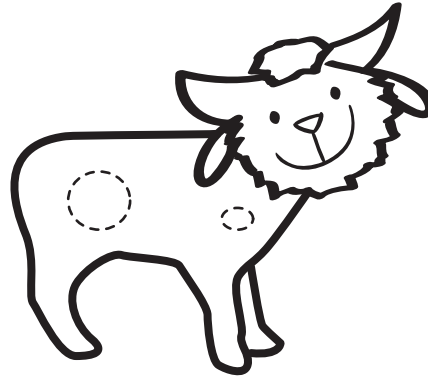

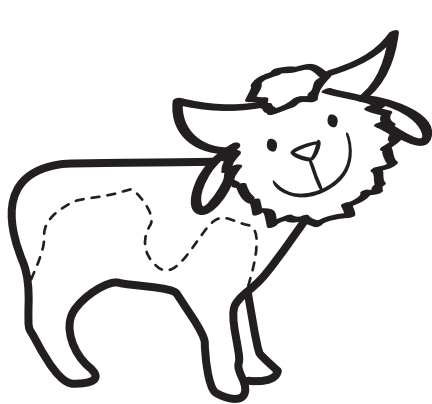

PRINTABLE ACTIVITY SERIES

COWBOY

MATH

Elmo needs to sort his herd of kitty-cows into pairs. Draw lines matching each kitty-cow to another kitty-cow that looks exactly the same. Now, count the kitty-cows by two. How many are there all together? Here's a hint: A pair means 2.

Parent Tip:

Look in a mirror with your child and encourage him to point out all of his body parts that come in pairs. What else can you find that comes in pairs?
